# Commitment has a colour. Red.

Good hygiene is a silent hero – unnoticed when present but deeply missed when it’s overlooked. For Katrin, hygiene isn’t just a choice – it’s a commitment to making things right. Of doing our part so that you can do your job and offer better hygiene experiences for those who matter to you. When you see the red in our brand, you see the colour of our passion and our dedication. You see a reflection of the way we work. From the use of fresh fibre – our main raw material which comes from regenerative, certified northern forests – to our smart offering of high-quality tissue paper and dispensers – we are invested in every step of the value chain. It’s how we deliver reliable and future-proof hygiene solutions.

**If you strive for better – choose Katrin.**

# Red is the colour of passion.

## Our passion for efficient and safe hygiene.

Katrin ensures a flexible, efficient and clean washroom experience for everyone and every use. Our product range is easy to navigate, making it simple to find the right solution for any setting.

With our Freedom of Choice dispensers, compatible with all folded towels, you have the freedom to choose what works best for you now and in the future. We focus on quick and intuitive installation and refilling for you and your staff, while our inclusive designs ensure accessibility for all end users. This is how we deliver hygiene solutions that match your need.

**Commitment has a colour. Red.**

# Red is the colour of dedication.

Our dedication  
to future-proof solutions.

We are invested in every step of our unique and transparent value chain, supporting your sustainability targets. Our commitment begins with our main raw material, fresh fibre from certified, regenerative northern forests through to products created to the highest hygiene standards.

Our company Metsä Tissue has earned EcoVadis Platinum status for six consecutive years and where relevant, our products hold the EU Ecolabel and/or Nordic Swan certifications as proof of our dedication to responsible practices. This makes us your proven partner in future-proof hygiene.

**Commitment has a colour. Red.**

# Red is the colour of commitment.

**Our commitment  
to steady supplies.**

With Katrin's secure supply, your business runs smoothly without unnecessary delays or disruptions. Our high-quality paper products are manufactured close to you, ensuring fast and reliable delivery. Thanks to our deep local business knowledge, we understand your specific needs and can respond quickly and effectively. With local production and shorter transport distances, we also reduce CO<sub>2</sub> emissions while maintaining dependable service. This is how we provide a steady supply of your essential product.

**Commitment has a colour. Red.**

## Our quality standard: Naturally certified.

Our Katrin product range consistently adheres to current quality standards and possesses up-to-date environmental certifications. This is how we ensure that we meet the sustainability requirements of consumers, buyers and customers in the public sector. Our processes and products are accredited according to recognised certification systems. For instance, all our production facilities are certified according to ISO 9001 (quality), 14001 (environment), 45001 (safety) and 50001 (energy).

The official EU Ecolabel offers a guide to choosing products that can help to reduce environmental impact while taking into account the entire life cycle.

PEFC is a transparent and independent system for ensuring sustainable forest management and is thus a global "forest TÜV". PEFC is the abbreviation for "Programme for the Endorsement of Forest Certification Schemes".\*

FSC® stands for "Forest Stewardship Council®". It is an international certification system for sustainable forestry. All of Metsä Tissue's factories have valid CoC certificates both for FSC®\*\* and PEFC\*.

EcoVadis is one of the leading CSR rating agencies ("Corporate Social Responsibility") that offers a platform that enables companies to evaluate their ecological and social performance. In 2025, Metsä Tissue has been awarded the highest EcoVadis platinum rating for the sixth time in a row.

The glass and fork symbol applicable throughout the entire EU denotes products that may come in direct contact with food for cleaning purposes.

Products that bear this label have undergone a dermatological test that guarantees the product's skin friendliness.

To ensure the protection of our products during transport, we utilise film-based packaging solutions. These not only offer space-efficient and logistics-optimized handling, but are also typically manufactured using a minimum of 50% recycled plastic materials.

\* PEFC/04-31-0596

\*\* FSC® C005927

= Licence numbers of the German Metsä Tissue mills in Raubach and Kreuzau

## The Katrin washroom concept.

At Katrin, we are committed to making hygiene solutions even simpler, more convenient, and more future-oriented. A key part of our strategy is a clearly structured product range that meets your needs and those of your customers. With the two quality lines Katrin and Katrin Plus, you can easily find the right solution for even the highest hygiene standards.

Katrin Plus delivers top performance for hygiene requirements needing a premium feel and an optimal visitor experience.

- Katrin Plus products are designed for the highest expectations regarding the visitor experience. The Plus product line offers solutions for many special requirements.
- Katrin Plus tissue provides maximum absorbency, softness, and a gentle feel.

Katrin products offer good performance and effectiveness for hygiene needs in all areas of use.

- Katrin products are designed for efficiency and are especially suitable for high-traffic areas. The Katrin product line offers optimum performance tissue for everyday use.
- Katrin always focuses on reduced consumption – tear-resistant, efficient paper means fewer sheets are needed.

## To optimal solution with two factors.

Visitor frequency and quality requirements are decisive. Match paper, dispensers, and accessories to the number of users and their expectations. To do so, ask yourself two questions:

### 1 What is the number of visitors in your washrooms?

- Are there many or few visitors?
- Are the visits evenly distributed or are sporadic peaks to be expected?
- How many maintenance intervals are required?
- Are smaller dispensers adequate or are larger dispensers needed?

### 2 What are users' expectations of dispensers and consumables?

- How important is paper quality for users?
- Are contactless dispensers desired?
- Which soaps and disinfectants are expected?
- What feeling do you wish to convey to your guests, customers or colleagues?

# The Katrin dispenser assortment.

## Dispensers for everyone. Everywhere.

Our dispensers are designed with the majority of users in mind and they focus on functionality. They are simple and ergonomic to use regardless of each person's physical capability. Maintaining the dispensers is simple thanks to their well-planned design and innovative features that simplify the daily work of service staff.

We bring well-being, care and functionality to all hygiene facilities in offices, hotels and restaurants, healthcare, industry, schools and other public spaces. We offer hygienic solutions for all needs.

### **Choose between white and black**

Our series of dispensers encompass a well thought out range of products that are suitable for all toilets and hygiene facilities at all workplaces. Whether you choose white or black dispensers, you will receive a good looking, well-functioning product. Together with our tissue paper and other accessories, it is easy to choose the right hygiene solution for your particular needs.

### **Focus on the user**

The dispensers have been designed in cooperation with industry experts and many different end users. With the help of interviews, observation and laboratory tests, we have collected valuable information to create sustainable and useful solutions for all kinds of hygiene facilities.

### **Unique features, less hassle**

Our main strategy is to make our dispensers as ergonomic and user-friendly as possible. For example, the soap dispensers are marked with Braille to simplify their use by those with impaired vision. The soap dispenser's full-face push cover makes it easy to use. Transparent sides make it easy for service staff to see when it is time to fill the dispenser with paper and soap, which means that the dispensers are always well-filled.

# The smart move? A dispenser that lets you choose.

We all know the situation: The hand towel paper that fits your dispenser is suddenly unavailable – or you want to switch to a different paper quality. Unfortunately, your dispenser only works with one specific towel type. The result: guests without paper, a temporary fix that isn't ideal, or a complete replacement of the dispensers. None of these options make sense. What if a dispenser worked with any folded towel?

**That is exactly what Katrin offers with Freedom of Choice.**

# Always efficient. And fully flexible.

Take control with the Katrin Freedom of Choice dispensers. We focus on efficient hygiene – that is why our dispensers are compatible with all folded hand towels. This means longer operating times, fewer paper shortages, and greater peace of mind for you.

**3** dispensers.  
**1** design.  
**0** compromises.

### Control over the costs

When needs, prices or availability change, simply switch to the folded towel that meets your requirements. Stay flexible, minimise costs and ensure smooth operations.

### Control over the product lifetime

Our dispensers are not tied to a single type of folded towel. No matter which paper you choose – the dispenser remains. Longer lifetime means less plastic waste and no costly replacements – good for the environment and the budget.

### Control over the user experience

Three dispenser sizes, one elegant design – for every visitor frequency. This ensures washrooms are consistently well stocked and your guests remain satisfied – no paper shortages, no compromises.

**Katrin  
Hand Towel Dispenser XL**

730 x 338 x 146 mm  
○ 89727 | ● 89741

**Katrin  
Hand Towel Dispenser M**

445 x 301 x 142 mm  
○ 77410 | ● 77434

**Katrin  
Hand Towel Dispenser S**

329 x 300 x 135 mm  
○ 88942 | ● 88966

**Suitable for all washrooms** | The Katrin hand towel dispensers in sizes S, M and XL are suitable for washrooms with low, medium and high consumption. They are designed as a universal solution so that you can implement your washrooms to suit your needs. The dispensers are easy to install thanks to the transparent back panel and easy to fill thanks to the practical side panels.

**Katrin Tabletop  
Dispenser**

165 x 225 x 105 mm  
● 66872

The space-saving, mobile dispenser solution for Katrin paper towels. Ideal for universal use in small spaces, e.g. for offices, kitchens or restaurants. Katrin Tabletop dispenser functions with all Katrin folded paper towels with a maximum width of 210 mm.

## The smart Handy Pack

- Conveniently carry thousands of towels with just one hand thanks to ergonomic carrying handle
- Easily and quickly open without tools thanks to integrated perforation
- Lower space consumption in the warehouse thanks to compact format
- Optimum protection against moisture thanks to foil packaging

## Katrin folded paper towels

**Hygienic and economical consumption** | Katrin folded paper towels are characterised by their high absorption and excellent softness. The optimum assortment fulfils various needs with regard to quality, number of plies and sheet size. Individual sheet dispensing and automatic unfolding of paper towels to their maximum drying surface ensure hygienic, contactless use and controlled, economical consumption.

## Katrin System paper towel roll dispenser

**Reliability in all environments** | The Katrin System hand towel roll dispenser is functional and dependable. It has a very high capacity. Depending on the paper quality, it contains 392 to 784 sheets each time it is loaded. The dispenser is also designed to minimise paper consumption. It is easy to use with a clearly defined push lever which shows where you can feed a new sheet of paper if no paper is visible hanging down.

## Katrin System paper towel rolls

Our System paper towels are especially suited to environments with high hygiene requirements that are visited frequently. Thanks to its single-towel dispensing, only the sheet that is used is touched, and consumption is reduced thanks to the optimally pre-defined sheet size. The high capacity per roll ensures reduced servicing requirements when refilling.

## Katrin System toilet paper dispenser

**The perfect supplement** | The Katrin System toilet paper dispenser holds two toilet paper rolls at once, is highly functional and reliable in any environment. Thanks to its high capacity, it ensures that there is always enough paper. The second roll only drops when the first one has been completely used up. In addition, an adjustable roll brake ensures controlled consumption.

## Katrin System toilet paper

With Katrin System toilet papers, there is always enough paper available, even in high-traffic areas, thanks to the high number of sheets. Controlled, individual dispensing of sheets reduces consumption, improves hygiene, and ensures less refill intervals.

**Universally applicable** | The Katrin soap dispenser, available in 1,000 ml or 500 ml sizes, is easy to use thanks to its full-face push cover. In addition, it is provided with Braille in the front area. Further Advantages: a pump with a backsuction function and transparent sides.

**The touchfree solution** | The sensor-controlled Katrin Touch-free dispenser provides a reliable and hygienic way to dispense Katrin mild foam and liquid soaps as well as disinfectants without any contact.

**The Katrin  
benefit:**

The same dispenser can be used for all our soaps – foam and liquid, shower gel, hand sanitizer or toilet seat sanitizing foam.

## Katrin soaps and shower gel

Regular hand washing can optimally support the health of your guests and staff. Careful washing and thorough drying of hands significantly reduces viral and bacterial infections spread by touch. The effective Katrin foam and liquid soaps "Neutral" and "Fresh" are gentle on both your skin and the environment.

### Katrin Soap Neutral [unscented]

This mild, creamy soap is free from fragrances or colorants and contains ingredients that are gentle on your skin and the environment. Its soft foam delivers thorough cleaning while simultaneously maintaining the skin's moisture balance. This perfume-free soap is especially suitable for sensitive skin types and for use in sensitive environments such as hospitals or schools.

### Katrin Soap Fresh [scented]

This fresh, creamy soap delights the skin with a delicate birchwood scent. Its mild formula ensures thorough cleansing and leaves a soft, long-lasting scent. Gentle on both skin and the environment, it is especially suitable for settings where subtle fragrance enhances the atmosphere, such as hotels or offices.

## Katrin disinfection

Katrin hand sanitizer gel is suitable as a hygienic supplement after washing and drying hands or wherever regular hand hygiene is not possible. You can also place a dispenser with hand sanitizing gel by the entry and exit so users can ensure their hygiene after touching the door handle. The product range for sanitizer products is supplemented by sanitizing foam soap and the toilet seat cleaner.<sup>1</sup>

Art. No.	Description	Content [ml]	Dispensing	Doses	Units/TU	TU/Pallet	
<b>Katrin Sanitizers</b>							
100880	Hand Sanitizer Gel	1.000	Manual	1.667 <sup>2</sup>	6	40	●
33430	Hand Sanitizing Foam Soap	1.000	Manual	2.500	6	40	●
954311	Toilet Seat Sanitizer (antibacterial)	500	Manual	1.250	12	30	●
100941	Hand Sanitizer Gel	500	Touchfree	455 <sup>3</sup>	12	30	●

<sup>1</sup> Use disinfectants safely. Always read the labelling and the product information before use.

<sup>2</sup> Corresponds to 333 applications or 5 dispenser dosages with a recommended use for hand disinfection of at least 3 ml.

<sup>3</sup> Corresponds to 151 applications or 3 dispenser dosages with a recommended use for hand disinfection of at least 3 ml.

# Waste bins:

# Less clutter, more order.

Well-placed waste bins make all the difference: easily accessible – ideally right next to the toilet or the sink – and properly sized, they play a crucial role in creating a hygienic washroom experience.

**Elegant design, smart features** | Whether in standard washrooms where durability matters or in exclusive environments where a strong image is essential – the metal dispensers create a premium impression and enhance washrooms in offices, restaurants, schools, healthcare facilities, and other public areas.

### The Katrin benefit:

Considering the surface to be wiped is important:

- Uneven and sharp surfaces require a strong wiping material
- A rubber surface, for example, places extra demands on the resistance of the wiping material to friction

# Hard work? Our rolls are the strong helpers.

In industrial environments, specialized wiping solutions are essential – whether dealing with oil, grease, or cleaning agents. Katrin industrial wiping rolls meet all the requirements for effective drying and wiping, delivering reliable cleanliness even in demanding tasks.

54909  
**Katrin floor stand  
for industrial wiping rolls**  
960 x 568 x 560 mm

54954  
**Katrin waste bag holder  
for floor stands**  
62 x 390 x 285 mm

The robust floor stand and the spacesaving wall dispenser made of black metal are suitable for roll widths of up to 40 cm.

## Katrin industrial wiping rolls – white and blue

### Katrin white cleaning rolls

An absorbent and soft wiping roll for general industrial needs. High-quality fibres, robust and low-linting; no smearing, excellent wet strength.

### Katrin blue cleaning rolls

A blue, clearly identifiable wiping roll for example for motor vehicle and workshop applications. Very absorbent and strong both when wet and dry; perfect for drying hands.
